Subject

Code enforcement of courville/recycle containers

Comments

Hello Honorable bodies:

I believe iin Mayor Duggan's State Of The City address the plan to Beautify the city. I am asking that he strongly enforce the code for removing the courville/recycle container in a timely matter after gfl/Advance pickup (no later than end of day). I also would like to strongly ask that he create a subcommittee focusing on calling the people that place those unsolicited signs (the tel# are on the signs) then, have the city remove the signs. The signs and containers out - they take away the beauty of our beautiful city ☐. This signs are on major streets and parks.

Finally, there is a city sign that reads 'Keep Detroit. Beautiful, Please Do Not Liter, ordinance# 22-2-83'; if we can have That sign posted in various locations, that would be great!

I love Detroit,
Respectfully,
Cookie ☐ Moore
