City Engineering: Do I need a permit to close a street or sidewalk?

“Right of Way” Permit

A Right of Way permit is required for any event that will use a portion of a street, ally or sidewalk. This includes the closing of an entire street or designation of curb lanes for special parking/no parking.

The City Engineering Department will review the request and recommend adjustments to the street plan. Clean up and/or other conditions will be communicated to you after your application has been reviewed at the Special Events Management meeting.

“Right of Way” Permit Costs

Right of Way Permits for Special Events cost may vary. Upon receipt of your Special Events Application, the City Engineering Department will consider the emergency vehicle access, parking and traffic congestion when approving your application.

Traffic Engineering: Who will close the street?

The applicant is responsible for closing the street with proper barricades and clear, concise signage for traffic detours. The City of Detroit requires a “Type 3” barricade for all closures. As part of your application, you will be asked to submit the name of the traffic control company you are hiring for managing closures/detours, along with the detail plan of where the barricades and signage will be placed.

Michigan State Highway Closures

Some city streets are also state highways and require a closure permit from the Michigan Department of Transportation. Closing any interstate on/off ramps also requires a permit from the Michigan Department of Transportation. After reviewing your application, the Office of Special Events will alert you if a MDOT permit is required and provide you with further information on how to apply for the permit. You will be responsible for hiring a traffic control company to manage the closure.

Route Description

A Street Closing Report must be included in your Special Events Application. It must provide a text and turn-by-turn description of your route from the start point to end point. The wording should utilize directions (N, S, E, W) as well as street names. A map attachment of your route is mandatory.

Municipal Parking: Can I close a parking lane?

Parking Meters and Costs

The City of Detroit - Municipal Parking Department manages parking meters, which must be rented for the time that the curb lane will be blocked from public parking.

Building Safety Environment Engineering: Do I need a permit for a tent?

Tents requiring permits

Any tent larger than a 10x10 will require a tent permit.

Exit signs, emergency lights, doors and any HVAC for the tent shall be shown on the plans upon application submittal.
- Formal approval will be issued in the form of a "Certificate of Inspection" signed and dated by the Fire Safety Unit inspector and an "Occupancy Load Placard" indicating the maximum number of persons allowed in the tent. Both documents shall be posted in a conspicuous, protected location.
- It shall be the responsibility of the applicant to ensure that the tent is being operated and maintained in a safe manner in accordance with the permit requirements, including not exceeding the occupant load. Failure to operate and maintain the tent in accordance with the permit requirements may result in immediate closure, revocation of the "Certificate of Inspection", fines and/or other legal actions by the City of Detroit.
- For specific fire safety questions regarding tents, relating to exits, occupant loads, exit signs, emergency lighting, fire extinguishers, exit doors and hardware etc. contact the Detroit Fire Department - Fire Inspection Unit.

Temporary Power Using Generators
