Courses Taught and Course Innovation:

Arch 170 FC: Design Thinking and Architecture - An Introduction to the Built Environment | Fall 2017 – Fall 2018

Arch 4/678U: The Black Experience & The American Built Environment - I created this new course for the curriculum as an elective seminar. It features new and original content in the form of lectures, drawings and diagrams that are constantly evolving. The focus of this course is to explore the historical and contemporary relationships between the American Black Population and the design, planning, land policy & use of American land. Offered to both undergraduates and graduate students. Offered in Fall and Spring semester sessions. | Fall 2020 - Present

Arch 428Z: Understanding Missing Middle Typologies - In this course students will take a comprehensive look at Missing Middle Building Typologies - Residential and Commercial. Utilizing historic and contemporary precedents, students will explore the functionality, purpose, organization and parti of a variety of typologies that exist between the single family house and the large block commercial building. The course also explores the socio-economic benefits to a modern society that present themselves by re-establishing "Missing Middle" building types. By the end of the course still will have a deeper index of functional and effective building types to pull from and present as contemporary solutions to the issues facing our current built environment. | Summer Session II - 2021-2022

Arch 401: Architectural Design Studio II - This is a design studio course and the continuation of ARCH 400 - the inaugural design studio for architectural undergraduates. It continues instruction on core design principles established in its predecessor by

introducing building typology, urban and contextual issues, design of the vertical surface, and architectural interiors. | Summer Session I & II - 2021

Arch 404: Graduate Architectural Design Studio I - Introduction to architectural design with particular emphasis on conventions and principles of architecture, visual and verbal communication skills, formal analysis, design process, spatial composition, architectural promenade, basic program distribution, and elementary constructional and environmental responses. Offered in the fall only. | Fall 2021

Arch 797/798: Thesis Proseminar & Thesis in Architecture - Directed thesis research, development and preparation of a Master's of Architecture Candidate(s) | Fall 2021 - Present

Arch 405: Graduate Architectural Design Studio II - Architectural design studio with emphasis on building and facade typologies, the development of architectural promenade and sequence, public and/or civic infill buildings dependent upon the architectural promenade, and urban housing types of varying densities. The architect's obligations to urban context are explored in many dimensions including historical, typological, and physical | Spring 2022

Advising Research or Clinical

Campbell, Julia - M.Arch Candidate; Fall 2021

*"Middle Ground: Exploring How Missing Middle Housing Typologies can Recalibrate Prince George's County's Fair Housing Opportunities"*. Graduate Thesis Advisor

**Graduate Teaching Assistant | University of Maryland, College of Architecture, Planning & Preservation**

Arch 411: Technology II (Structures and Statics) | Spring 2014.

Arch 170: Introduction to the Built Environment | Fall 2013.

Arch 411: Technology II (Structures and Statics) | Spring 2013.

**Studio Leader | University of Maryland**

Arch 150: Discover Architecture Studio | University of Maryland | Summer 2013.

**Research Assistant to the Director | University of Maryland, College of Architecture, Planning & Preservation**
