RE: Research on Legality of Restricting Marijuana Billboards and Potential Zoning Regulations

I am requesting that the Legislative Policy Division conduct research on the legality of restricting marijuana-related billboards within the City of Detroit. This research should cover relevant federal, state, and local regulations, legal precedent from other municipalities, and the potential for implementing zoning regulations to limit the placement of these billboards in specific areas of the city.

Please provide findings along with potential policy recommendations, including how zoning laws could be applied to regulate the locations of marijuana billboards.

Thank you for your attention to this matter.
