To whom it may concern,

My name is Josephina Ramon, and I am applying for the Tenet's Rights Commission. I am currently a summer intern with the Office of the Honorable Coleman A. Young II.

I am currently a renter in the great city of Detroit. I am also a student at Wayne State University in my junior year. In my experience as a renter, I have been faced with several challenges. For example, no water in my apartment for three months, a secured parking lot that is not secure, age and gender discrimination from building management, pest and bug infestation, and poor maintenance request response. I have witnessed several neighbors leave for these reasons. The Tenet's Rights Commission is long overdue in the city of Detroit. I have a voice and vote, and I want to use them. It is my expectation that the commission will enact change and empower all tenets without the threat of eviction. All tenets should be heard and experience immediate resolution.

Thank you for your consideration in this exciting new commission.
