Re: Proposed Savvy Sliders at 6211 Cadieux Rd., Detroit, MI 48224

Recommendation

The Department of Public Works (DPW) reviewed the plan submitted and approves it.

Background

The Department of Public Works, through our Traffic Engineering Division, has thoroughly reviewed the most recent site plan for this facility, which was submitted on May 22, 2024. The site plan shows ten (10) onsite stacking spaces for the vehicles waiting to be served. The site plan also shows one curb cut for this facility, located towards the southern end of the property, allowing for traffic to enter and exit the site directly from Cadieux Road. Traffic Engineering also reviewed the proposed curb cut, and all associated geometrics, and is confident that it will not negatively impact the flow of traffic on Cadieux.

Conclusion

The plan shows a stacking distance of 10 spaces and a potential staking space for 15 cars within the premises. The likelihood of a queue of cars, waiting to be served, spilling over to Cadieux Road will be infrequent, if it were to occur at all. Therefore, DPW has no objection to the plan as submitted.

Respectfully submitted,

Ron Brundidge, Director
Department of Public Works

CC: Malik Washington, Mayor's Office
Oladayo Akinyemi, DPW
Prasad Nannapaneni, DPW
