Honorable City Council:

RE: Petition No. x2025-078 – Great Lakes Water Authority, request for encroachment within the westerly part of Hubbell Ave., adjacent to the parcel commonly known as 9533 Hubbell Ave., for the installation of a new level sensor and a new electrical cabinet.

Petition No. x2025-078 – Great Lakes Water Authority, request for encroachment within the westerly part of Hubbell Ave., 66 ft. wide, adjacent to the parcel commonly known as 9533 Hubbell Ave., for the installation of a new level sensor and a new electrical cabinet.

Great Lakes Water Authority is planning to perform improvements at their Hubbell Southfield Combined Sewer Overflow (CSO) Facilities in the City of Dearborn. In coordination with the work being performed at that facility, they are proposing to refurnish this level sensor within the City of Detroit.

The petition was referred to the City Engineering Division – DPW for investigation and report. This is our report.

The request was approved by the Solid Waste Division – DPW, and City Engineering Division – DPW. Traffic Engineering Division

Detroit Water and Sewerage Department (DWSD) reports being involved, but they have no objection provided the DWSD encroachment provisions are followed. The DWSD provisions have been made a part of the resolution.

All other involved City Departments, including the Public Lighting Authority and Public Lighting Department; also privately owned utility companies have reported no objections to the encroachment. Provisions protecting all utility installations are part of the attached resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted,

Richard Doherty, P.E., City Engineer
City Engineering Division – DPW

Cc: Ron Brundidge, Director, DPW
Mayor's Office – City Council Liaison
