**RE:** Questions on DLBA Partnerships, Sales, and Proposal N

- Please identify how many properties that have been on the City of Detroit’s demolition list have been sold by the DLBA
- What impact does the sale of these properties on the City’s demolition list have on Proposal N dollars that were allocated for demolition? Where do those dollars then go?
- In regards to the partnership with the United Community Housing Coalition (UCHC) for the DLBA’s BuyBack program:
  - When did this partnership start?
  - How long is it anticipated to last?
  - How many people have taken part so far in it?
  - Please prepare a report on the effectiveness of the BuyBack program for the City Council and provide it to all members by the end of the year, including this partnership
