DEPARTMENTAL REFERENCE COMMUNICATION

Thursday, August 29, 2019

To: The Department or Commission Listed Below
From: Janice M. Winfrey, Detroit City Clerk

The following petition is herewith referred to you for report and recommendation to the City Council.

In accordance with that body's directive, kindly return the same with your report in duplicate within four (4) weeks.

1059 Founders Brewing Company, request to hold "Outer Limits Party" at Founders Brewing Company Parking Lot on September 28, 2019 from 12:00 PM to 12:00 am with setup on 9/27/19 and teardown to be completed on the event date 9/28/19.
City of Detroit Special Events Application

Successful events are the result of advance planning, effective communication and teamwork. The City of Detroit will be strictly adhering to the Special Events Guidelines; please print them out for reference. Petitioners are required to complete the information below so that the City of Detroit may gain a thorough understanding of the scope and needs of the event. This form must be completed and returned to the Special Events and Film Handling Office at least 60 days prior to the first date of the event. If submitted later than 60 days prior, application is subject to denial. Please type or print clearly and attach additional sheets and maps as needed.

Section 1 - GENERAL EVENT INFORMATION

Event Name: Outer Limits Party

Event Location: Founders Brewing Company Parking Lot

Is this going to be an annual event? [X] Yes  [] No

Section 2 - ORGANIZATION/APPLICANT INFORMATION

Organization Name: Founders Brewing Company

Organization Mailing Address: 456 Charlotte Street, Detroit, MI 48201

Business Phone:  Business Website: www.foundersbrewing.com

Applicant Name: Joseph Choma

Business Phone: (313) 335-3440  Cell Phone: 313-402-7880  Email: joe@grandcircusmedia.com

Event On-Site Contact Person:

Name: Joe Choma

Business Phone:  Cell Phone: 313-402-7880  Email: joe@grandcircusmedia.com

Event Elements (check all that apply)

[ ] Walkathon  [ ] Carnival/Circus  [ ] Concert/Performance

Event Times (If more than one day, give times for each day):

Section 3- LOCATION/SITE INFORMATION

Location of Event:

Facilities to be used (circle): Street Facility Business Parking Lot

Please attach a copy of Port-a-John, Sanitation, and Emergency Medical Agreements as well as a site plan which illustrates the anticipated layout of your event including the following:

- Public entrance and exit
- Location of merchandising booths
- Location of food booths
- Location of garbage receptacles
- Location of beverage booths
- Location of sound stages
- Location of hand washing sinks
- Location of portable restrooms
- Location of First Aid
- Location of fire lane
- Proposed route for walk/run
- Location of tents and canopies
- Sketch of street closure
- Location of bleachers
- Location of press area
- Sketch of proposed light pole banners

Section 4- ENTERTAINMENT

Describe the entertainment for this year’s event:

Two local DJ’s, a local band, and Jessica Hernandez & the Deltas

Will a sound system be used? [x] Yes [ ] No
If yes, what type of sound system?
Ground stacked PA two full range cabinets over two subwoofers on each side.
2xJBL725, over 2xJBL728

Section 5- SALES INFORMATION

Will there be advanced ticket sales? [x] Yes [ ] No
If yes, please describe:

Will there be on-site ticket sales? [x] Yes [ ] No
If yes, list price(s):

Will there be vending or sales? [x] Yes [ ] No
If yes, check all that apply:

Indicate type of items to be sold:

Will there be food trucks? ☐ Yes ☒ No
If yes, please list how many:

Will there be a charge for parking? ☐ Yes ☒ No
If yes, please describe the amount:

How will you advise attendees of parking options? Through social media and email list correspondence

Section 6- PUBLIC SAFETY & PARKING INFORMATION

Name of Private Security Company: Prostar Professional Service Group
Contact Person: Michael Whittaker
Address: 26606 Southfield Rd
City/State/Zip: Lathrup Village, MI 48076
Phone: 734-323-1679

Number of Private Security Personnel Hired Per Shift: Five

Are the private security personnel (check all that apply):

[ ] Licensed [ ] Armed [☐] Bonded

Section 7- COMMUNICATION & COMMUNITY IMPACT INFORMATION

How will your event impact the surrounding community (i.e. pedestrian traffic, sound carryover, safety)?
Additional traffic to the area with some sound carryover. Event is being held within the confines of private parking lot.

Have local neighborhood groups/businesses approved your event? ☒ Yes ☐ No

Indicate what steps you have or will take to notify them of your event:
Posters in the neighborhood, email correspondence, social media

Section 8- EVENT SET-UP

Complete the appropriate categories that apply to the event Structure

Describe specific power needs for entertainment and/or music. If generators will be used, described how many and how they will be fueled:
One - 30kW generator to be used to provide power to the stage. It will not require additional fueling other than the original fuel provided by Michigan Cat. The rest of the power will be run from the building.
Name of vendor providing generators: Contact Person: Aaron Suzore

Address: 19500 Dix-Toledo Hwy

Phone: 734.756.7927

City/State/Zip: Brownstown Twp, MI 48183

How Many? One

Size/Height 30kW

Booth:

Tents (enclosed on 3 sides)

Canopy (open on all sides)

Staging/Scaffolding

Bleachers

Section 9- COMPLETE ALL THAT APPLY

Emergency medical services? N/A

Contact Person: N/A

Address:

City/State/Zip:

Name of company providing port-a-johns. Scotty's Potty's

Contact Person: Lori Proctor - Scotty's Potty's

Address: P.O. BOX 530845

Phone: 734-421-1400

City/State/Zip: Livonia, MI 48153

Name of private catering company? N/A

Contact Person:

Address: Phone:

City/State/Zip:
SPECIAL USE REQUESTS

List any streets or possible streets you are requesting to be closed. Include the day, date, and time of requested closing and reopening. Neighborhood Signatures must be submitted with application for approval. **Barricades are not available from the City of Detroit.**

Will there be street closures? □ Yes  ✗ No

If yes, please complete the street closure information below and attach a map or sketch of the proposed area for closure.

AUTHORIZATION & AFFADAVIT OF APPLICANT

I certify that the information contained in the foregoing application is true and correct to the best of my knowledge and belief that I have read, understood and agreed to abide by the rules and regulations governing the proposed Special Event, and I understand that this application is made subject to the rules and regulations established by the Mayor or the Mayor's designee. Applicant agrees to comply with all other requirements of the City, County, State, and Federal Government and any other applicable entity, which may pertain to Special Events. I further agree to abide by these rules, and further certify that I, on behalf of the Event agree to be financially responsible for any costs and fees that may be incurred by or on behalf of the Event, to the City of Detroit.

Signature of Applicant  Date

8/8/19

NOTE: Completion of this form does not constitute approval of your event. Pending review by the Special Events Management Team, you will be notified of any requirements, fees, and/or restrictions pertaining to your event.

HOLD HARMLESS AND INDEMNIFICATION

The Applicant agrees to indemnify and hold the City of Detroit (which includes its agencies, officers, elected officials, appointed officials and employees) harmless from and against injury, loss, damage or liability (or any claims in respect of the foregoing including claims for personal injury and death, damage to property, and reasonable outside attorney’s fees) arising from activities associated with this permit, except to the extent attributable to the gross negligence or intentional act or omission of the City.

Applicant affirms that Applicant has read and understands the Hold Harmless and Indemnification provision and agrees to the terms expressed therein.

Introduction
Outer Limits Party will take place at Founders Brewing Co. in Detroit, Michigan. The goal of the event safety plan is to consolidate all information to ensure proper planning and coordination between Grand Circus / Founders Brewing Co., select staffing providers, and the City of Detroit. Four specific plans are included below to summarize each area.

Security Plan
Event security staff will consist of private non-commissioned security guards who are licensed and certified in the State of Michigan by Prostar Professional Services Group. Grand Circus and Founders Brewing Co. will manage and oversee security management services to implement the security plan.

Entry / Exits
Upon entry into the event, each patron will be processed through secure perimeter and a search of their personal effects for prohibited items. A list of prohibited items is posted on the website and at each entrance. No weapons or alcoholic beverages are permitted. The contracted private security company will do all patron searches. When deemed necessary, blowout gates can be opened to increase the number of exit points throughout the event footprint.

Security Response Teams
Teams comprised of mobile security guards that maintain radio communication with Grand Circus / Founders Brewing Co. and other essential departments. They are tasked with responding to any situation requiring their attention throughout the event grounds. The security response teams will monitor suspicious activities, check fence lines, and other tasks as designated. Response teams will be equipped to dispatch immediate medical or law enforcement assistance at all times.

Perimeter Fencing
The venue perimeter fence will be established and secured by 6' or 8' chain link fence panels or existing cast iron permanent fence; temporary fence panel segments are 6'/8' high x 12' wide. This panel fencing can be opened at each connecting point should the need arise. Event
security staff patrols the fence line. Portion of the fence line will act as working gates and all working gates will be manned during all event hours.

**Restricted Areas and Back of House**
The event grounds are general admission for all patrons. Barricades, bike rack, and fence are used to delineate between patron areas and back of house secured areas. Security staff is also utilized at checkpoint entrances to back of house. Staff members are instructed to display appropriate badges and/or wristbands to security for their inspection to gain access.

**Weather Plan**
The event weather plan describes the responsibilities of key event staff and city officials in the event of an emergency. The event is subject to all types of emergency situations, including, but not limited to weather, fire and civil disturbance. Township officials are in overall command of any emergency. A command post will be set up inside the orchard offices.

**Emergency Team**
The event emergency team will be made up of the following persons, who will report to the Command Post in the event of an emergency.

</table>

The emergency team will take the necessary steps, as detailed within this plan to ensure the safety of all persons in the event of an emergency. The team will also determine what steps are needed to make the event ready for operation following the emergency.
Team Responsibilities During Emergency

1. Security Manager
   a. Staff command post
   b. Liaise with producers and event director to determine existing threat level and necessary actions required
   c. Inform all city services of situation and determine next steps

2. Police Department Personnel
   a. If needed, direct vehicular and pedestrian traffic to facilitate evacuation to determined location(s)
   b. Shift/remove barricades as instructed
   c. Set up advance teams and communications at evacuation sites, if needed
   d. Provide support with evacuation procedures and maintain order
   e. Direct bomb threat operations

3. Fire Department Personnel
   a. Maintain fire control
   b. Direct hazardous materials operations

4. EMS and Medical Personnel
   a. Patient treatment
   b. Transport injured persons as needed

5. Production Team
   a. Manage stage operations and vendors
   b. Inform stage managers of situation and discuss next steps
   c. Secure production equipment
   d. Shut down electricity as required, ensuring all announcements have been made prior to disconnect

6. Operations Team
   a. Manage site operations and vendors
   b. Inform crew and food/merchandise/bar management of situation and discuss next steps
   c. Secure site equipment
   d. Prepare and facilitate fence openings at Emergency exit points as needed
7. Security Provider Lead (Prostar Professional Services Group)
   a. Manage security operations and vendors
   b. Inform security agents, guards, and gate staff of situation and discuss next steps
   c. Maintain contact with volunteers and event staff during evacuation to:
      i. Assist and direct patrons to nearest exit
      ii. Report any injuries of staff or patrons to supervisor

Levels of Emergency Situations and Actions
Producer of the event will have the authority to authorize an information alert and/or an emergency alert. Security Director and/or Producers and Event Director can receive direction from the police, fire department, or OEMC safety officials regarding the suspension of event operations, an evacuation and/or resumption of event facilities.

Two levels of emergency situations will be utilized.

Information alert requires information distribution and serves as an advanced warning towards approaching inclement weather. The information alert doesn’t typically require any action by event staff, vendors, or the public.

Emergency alert requires action by most, if not all, people at the event.

Information Alert – Approaching Weather
- **Situation** – If rain or other weather is moving toward the area, which may or may not impact the event, an information alert is issued by the Command Post.

- **Action** – If this situation occurs, the following will take place
  - Command Post will notify Emergency Team members of the specific situation and message an information notice only. Typically, no action is required.
An ALL CALL transmission will go out to all radio users informing them of the alert in a clear and succinct manner. Updates will be messaged every 30 minutes until the alert is waived off.

Information Alert – Weather Delay

- **Situation** – If moderate rain will likely occur at event site and causes a delay in operations, an alert will be issued by the Command Post.

- **Action** – If this situation occurs, the following will take place.
  - Command Post will be established
  - Emergency Team will determine course of action and craft an information notice.
  - Command Post will notify Production manager to have stage manager make a weather delay announcement in affected areas.
  - Production and Site Managers will secure electrical equipment as required.
  - If required, an ALL CALL transmission will go out to all radio users informing them of the alert in a clear and succinct manner. Updates will be messaged out every 15-30 minutes until the alert is cancelled.

Emergency Alert – Weather Evacuation

- **Situation** – If a potentially severe storm (to include high winds, lightning and/or hail) or another potentially dangerous situation is predicted to affect event site, an Emergency Alert will be issued by the Command Post.

- **Action** – If this situation occurs the following will take place.
  - Command Post will be established
  - Emergency Team will determine need for site evacuation and craft an emergency alert.
- Course of action must provide designated evacuation corridors and destinations
- Proper communications to event staff for an organized evacuation
- Clear guidelines on process and execution of evacuation
  - An ALL CALL transmission will go out to all radio users informing them of the alert in a clear and succinct manner. Updates will be messaged out every 15 minutes until the alert is waived off.
  - Production manager will direct staging/structure vendors to implement wind action plans at each structure and have area managers make Weather Evacuation announcements on all PA systems.
  - Food/Merchandise/Bar vendors should secure equipment, inventory, and cash immediately after receiving the Emergency Alert. All Front of House staff will be required to leave the site and assist by encouraging others to do so.
  - Patrons will be directed to the nearest exit by event staff.
  - Police will direct vehicular and pedestrian traffic according to their assigned stations.
  - Event staff with radios will report to Command Post (by radio or cell phone) when evacuation is complete.

Sample Announcements To Patrons
1. Weather Delay – “We have been informed that light to moderate rain is on its way to this area. We are not expecting a severe storm, but we may delay the event temporarily due to rain. Please hang tight.”

2. Weather Evacuation – “We have received warning from the National Weather Service that potentially dangerous storm is possibly on its way to this area. We have been asked by local authorities to evacuate the event site. Please clear away from trees and any structure and calmly head to the nearest exit and follow direction from event staff and police. The event will reopen as soon as the
storm has passed and conditions are safe. Once again, calmly head to the nearest exit. Thank you for your cooperation."

The Command Post will make staff announcements on all event radio channels at the direction of the Emergency Team to declare an Information Alert or Emergency Alert. Because the general public may hear these announcements, care should be taken to communicate only the required information in a calm manner.

**All Call Radio Transmission should be as follows:**

"Attention all personnel, stand by for an announcement..."

"Attention all personnel, stand by for an announcement..."

"Attention all personnel, we are currently under an Information Alert / Emergency Alert..."

"Please report to your area of responsibility and provide the following information to vendors, entertainment, etc. in your assigned areas..."

**General Instructions**

1. All personnel must remain on their assigned radio channel unless directed by Command Post.
2. Command Post is to make status announcements on all radio channels in use as needed at least every 30 minutes during an Information Alert and every 15 minutes during an Emergency Alert.
3. Do not talk on the radio unless you have something to report or ask relating to the emergency. Do not ask for weather reports. The Command Post will keep you informed as information becomes available. Do not report weather conditions you can't personally see. Do not report information from outside sources.
4. Report to your assigned area.
5. Report to Command Post (by radio) or your supervisor once your assignment has been carried out.
6. Report to Command Post (by radio) when your area has been evacuated and secured for weather. This can be completed as you are going to a shelter.
7. Do not go to Command Post unless instructed.
8. Report any damage to equipment, injuries or dangerous situations you encounter after the emergency is over.

Evacuation Shelter Sites
In the event of severe weather, patrons should seek shelter in the following locations:
   1. Inside the Taproom
   2. Personal Vehicles

Weather Monitoring
Grand Circus / Founders Brewing Co. will maintain a weather monitoring post in the Command Post inside the Founders Brewing Co. offices.

High Wind Action Plan
Each structure maintains a high wind action plan tailored to its specific needs. Certain actions will be triggered by observed (or predicted) wind speeds, which include, but are not limited to, removal of soft goods and scrims, lowering of video and audio, raising or lowering lighting trusses and evacuation process. Meeting with each area manager, structure-specific vendors, and local labor will ensure that all necessary actions are understood at every stage prior to doors opening.

Medical and Fire Plan
The goal of the event medical staff is to provide quality and safe medical care to the patrons, staff, volunteers, and working personnel and to reduce the potential for serious/life threatening injuries. Direct coordination is imperative with all city services organizations, local hospitals, event organizer and the provider to ensure the goal is achieved.

Medical Emergencies
All requests for medical assistance must be communicated to Command dispatch via staff radio. Medical response will be determined by dispatching the closest available team member to the location of the person needing attention.
Medical Incident Report Procedure

- A staff member or security shall stay with the patient at all times until care is transferred to medical personnel.
- Contact Medical channel and relay the nature of the injury and location of the injured person. When possible, try to provide the closest pole marker, grid location, or landmark.
- Communicate patient information only to Medical personnel. Do not violate HIPAA laws by relaying information to anyone outside of the above personnel.

Services Provided
Call 9-1-1 for medical emergency’s

Coordinated Support
If required, Detroit Fire will respond to the event. Paramedic units will be directed to arrive to the gate on Charlotte Street.

All requests for fire assistance/response must be communicated to the:
- Command Post (where festival security is in direct contact with Fire personnel)
- Any on-site uniformed Police officers (who are in direct contact with Fire personnel).

Major Incident Plan

Structural or Equipment Injury / Death
In the case of a major incident involving structural or equipment malfunction causing injury or death, the following steps will be taken:
- Nearest person to incident notifies Command dispatcher on the DISPATCH channel
- Medical Incident Reporting Procedure goes into effect
- Events Director and Producers are notified
- Emergency Team will convene in Command Post to review next steps
- If festival should be suspended due to incident, evacuation protocol goes into effect:
- An ALL CALL transmission will go out to all radio users informing them of the alert in a clear and succinct manner. Updates will be messaged out every 15 minutes until alert is waived off.
- Vendors should secure equipment, merchandise, and cash immediately after receiving the emergency alert. All front of house staff will be required to leave the site and assist by encouraging others to do so.
- Patrons will be directed to the nearest exit by the event staff.
- Police will direct vehicular and pedestrian traffic according to their assigned stations.
- Event staff with radios will report to Command Post (by radio or cell phone) when evacuation is complete.

Sample Major Incident Announcement to Patrons
Evacuation – “This is an event evacuation. We have been asked by Detroit Police Department to evacuate the event site. Please calmly head to the nearest exit and follow directions from event staff and police. The event will reopen when conditions are safe. Once again, calmly head to the nearest exit. Thank you for your cooperation.”

Act of Terrorism
In case of a major event involving an act of terrorism the following steps will be taken:

- Nearest person to the incident notifies Command Post on SECURITY channel and the Emergency Team is notified
- In the event of an attack, local authorities are in charge and will take the lead in communicating.
- The radio will be used to alert team members of the incident and its location
- Evacuation plan goes into effect:
  - An ALL CALL transmission will go out to all radio users informing them of the alert in a clear and succinct manner. Updates will be messaged out every 15 minutes until alert is waived off.
  - All event staff should clear the incident area.
  - Patrons will be directed to the nearest exit by event staff.
- Police will direct vehicular and pedestrian traffic according to their assigned stations
- Social Media team will monitor online communication and inform the Event Director of any potential issues arising

Project Location: Founders Brewing in Detroit, MI
Estimated Delivery: Customer pick up Friday, September 27th

Dear Joe Choma:

Thank you for your interest in services provided by Michigan CAT. I am pleased to submit the following offer to provide equipment as outlined below for your project Founders Brewing in Detroit, MI.

**Equipment - rates reflect quantities**

<table>
<thead>
<tr>
<th>Qty</th>
<th>Description</th>
<th>Shift</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>30kW portable Cat diesel generator @ 208v 3 phase</td>
<td>Single</td>
</tr>
<tr>
<td>1</td>
<td>Ground rod, cable and clamp</td>
<td></td>
</tr>
<tr>
<td>1</td>
<td>Set of 2/5 female cam lock tails</td>
<td></td>
</tr>
<tr>
<td>1</td>
<td>50' section of 2/5 cam lock cable</td>
<td></td>
</tr>
</tbody>
</table>

Total: $550.00 plus fuel and tax

---

Environmental Fee: $11.00 per invoice
Round Trip Freight (if required): Cost plus 20%
Labor (if required): $162.00 per hour straight time, $200.00 per hour overtime

**Shift Details** - The above rates reflect the following operational shift criteria:

- **Stand By:** Up to 2 hours/day, 10 hours/week and 40 hours/month
- **Single:** Up to 8 hours/day, 40 hours/week and 160 hours/month
- **Double:** Up to 16 hours/day, 80 hours/week and 320 hours/month (1.5 times the single shift rate)
- **Triple:** Allows unlimited operation. (2 times the single shift rate)

Michigan CAT will support this project with a trained staff of technical personnel available 24 hours a day, seven days a week. Local service will be supplied from one of our seven locations; we will dispatch from our central command post in Novi, Michigan — *(888) CAT-RENT.*

Prior to your final decision, we would like to discuss any concerns or other options we have submitted further. While we would like to be your chosen provider, we also want to ensure we can do the job properly and to your satisfaction.

Kalkaska • Brownstown Twp.
Additional Costs

A. Freight - Charges to deliver the load(s) of equipment and accessories to your project located at Founders Brewing in Detroit, MI and pick up at the conclusion of the project have not been quoted. It should be noted that all lifting (if required) of our equipment must be supplied by your company and that any delays during delivery or pick up may result in additional freight charges.

B. Labor – Any set up, start up, tear down or service calls will be charged at the following rates:
   - 162.00 per hour straight time (Monday - Friday 7 am – 4 pm)
   - 200.00 per hour over time (After 4 pm Monday – Friday, weekends and holidays)

Parking Fees will be charged at cost plus 10%. An environmental fee charge of 5% will be added to all labor charges.

C. Fuel - Our equipment will be shipped 7/8 full of diesel fuel unless otherwise communicated. We are pleased to offer our on-site refueling service at a cost plus 20% for this project, if required. An after-hours delivery charge will apply per delivery (minimum of 4 hours at $140 / hour). Any fuel used and not returned will be charged $7.00 per gallon.

D. Site Maintenance - It is the responsibility of Grand Circus Media to maintain and service our equipment while on-site. Routine maintenance or service includes daily equipment checks, changing all filters, (including oil, air, and fuel filters) and changing oil when needed. Our diesel driven equipment needs to be serviced every 250 hours of operation. The customer or approved contractor may perform the required service with suitable training if approved by Michigan CAT prior to servicing. Michigan CAT will perform this routine maintenance at above labor rates plus parts and travel.

E. Accessories - Michigan CAT offers a full line of accessories including cable, distribution equipment, transformers, extended run fuel tanks, etc. Any missing or damaged equipment will be billed accordingly.

Grand Circus Media Responsibilities and Conditions

Grand Circus Media will be responsible for obtaining any relevant operating permits, the payment of all local and state taxes, installation of grounding rods and specialized labor. Michigan CAT excludes all labor for electrical terminations to customer’s facility; this is the customer’s responsibility to hire the appropriate electrical contractor.

Grand Circus Media will be also responsible to have updated General Liability Insurance and Physical Damage Coverage for rented equipment. If Physical Damage Coverage cannot be provided, a Loss Damage Waiver (LDW) of 14% will be charged per invoice.

All services provided by Michigan CAT are subject to our Terms and Conditions. This document is provided online at: http://www.michigancat.com/rental/terms-and-conditions alternatively, a copy will be provided upon request.

Customer accepts and acknowledges receipt thereof by these methods. Michigan CAT will accept no alternative terms and conditions.

Proprietary

Michigan CAT, as a benefit to you, has developed the ideas and concepts detailed in this offer on August 8, 2019. These are considered by Michigan CAT to be confidential and proprietary. These ideas and concepts remain the sole property of Michigan CAT. Grand Circus Media acknowledges and agrees to honor our proprietary right to the contents of this offer and refrain from disclosing such content or any information to any third party, without the prior written consent of Michigan CAT Power Systems. Any unauthorized use of these ideas and concepts is strictly prohibited.

Payment & Validity Terms

Pending further review at the time of order, payment terms are Net 30. All monthly pricing based on a 28 day billing cycle. The terms of this offer are valid for 30 days and are contingent upon equipment availability.
In conclusion, we trust our offer and various options meet with your present requirements, and we look forward to further discussions with you in the very near future. Please feel free to call me with any questions.

Best Regards,

FEATURES

EPA TIER 4 AND CARB CERTIFIED FOR NON-ROAD MOBILE APPLICATIONS

SOUND ATTENUATED ENCLOSURE
- The fully weatherproof enclosures incorporate internally mounted exhaust silencers.
- Highly corrosion resistant construction.
  - Body made from sheet steel components pretreated with zinc phosphate prior to polyester powder coating at 200°C (392°F)
  - Black stainless steel padlockable latches.
  - Zinc die cast hinges/grab handles.
- Excellent access for maintenance.
  - Two large doors on each side. Two rear doors for distribution/control panel.
  - Front panel for air discharge box access.
  - Lube oil and cooling water drains piped to exterior of the enclosure.
- Security and safety.
  - Safety glass control panel viewing window in a lockable access door.
  - Cooling fan and battery charging alternator fully guarded.
  - Fuel fill and battery can only be reached through lockable access doors.
- Transportability.
  - Tested and certified single point lifting eye.
  - Lifting points on baseframe.

ROBUST DESIGN FOR RENTAL ENVIRONMENT
- Packages designed to survive in a rugged environment.

DISTRIBUTION PANEL
- Switchable voltage from 480/277V 3-phase to 240/139V 3-phase (adjustable to 208/120V 3-phase), 240/120V single phase.*

REAR CUSTOMER ACCESS
- Access through two doors.
- Separate control panel access.
- Separate connection console.
- Hinged door over main connectors.
- Emergency stop on panel.

ENVIRONMENTALLY FRIENDLY DESIGN
- EPA Tier 4 off-highway compliant engine.
- UL single walled fuel tank base with 24 hour minimum fuel supply.

OPTIONS
- AH1H – Anti-condensation heater 110-120 volt AC
- WHH – Coolant heater 110-120 volt AC
- LOLR – Lube oil make-up system with REN automatic leveller
- Double wall fuel tanks
- Battery charger
- Hydraulic or Electrical Brake Trailer
- PFT – 0.8 pF test

* Refer to distribution panel specifications for details.
STANDARD FEATURES

1. ENGINE
Heavy duty industrial EPA Tier 4 compliant diesel engine.
1.1 Governor
Electronic
1.2 Electrical System
12 volt DC. Energized to run shutdown solenoid. Oil pressure and coolant temperature/level shutdown switches and gauge senders.
1.3 Derates
Genset power derates will be required in accordance with engine manufacturers above 30°C (86°F).

2. COOLING RADIATOR
Radiator and cooling fan complete with protection guards, designed to cool the engine in ambient temperatures up to 49°C (120°F).

3. ENGINE FILTRATION SYSTEM
Cartridge type dry air filters with restriction indicator. Racor fuel filter in addition to engine filter. Cartridge type fuel filters and full flow lube oil filters. All filters have replaceable elements.

4. EXHAUST SYSTEM
Critical silencer with flexible connector. All internal pipework lagged.

5. ELECTRICAL SYSTEM
12 volt system with battery charging alternator, and starter motor on engine, battery rack mounted on the generator set baseframe and optional battery charger mounted on control panel. Battery rack will accept a variety of battery sizes. Includes Cat maintenance free 880CCA Battery.

6. GENERATOR
Screen protected and drip-proof, self exciting, self-regulating brushless generator with fully interconnected damper windings. ICD6 cooling system and sealed-for-life bearings. Switchable voltage output.
6.1 Insulation System
The insulation system is Class H. Windings are impregnated in a triple dip thermo-setting moisture, oil and acid resistant polymer varnish. Heavy coat of anti-tracking varnish for additional protection against moisture or condensation.
6.2 Electrical Characteristics
Electrical design in accordance with BS5000 Part 99, IEC6034-1, EN61000-6, NEMA MG-1,122.

6.3 Automatic Voltage Regulator (AVR)
The R250 is a fully sealed automatic voltage regulator, which maintains the voltage within the limits of ± 0.5% at steady state from no load to full load. Nominal adjustment is by means of a trimmer incorporated in the AVR. The panel door incorporates an additional voltage adjustment potentiometer.

6.4 Waveform Distortion, THD and TIF Factors
The total distortion of the voltage waveform with open circuit between phases or phase and neutral is in the order of 1.8. On a 3-phase balanced harmonic-free load the total distortion is 4%. Machines are designed to have a THD less than 2% and a TIF less than 50. A 2/3 pitch factor is standard on all stator windings.

6.5 Radio Interference
Suppression is in line with the provisions of EN61000-6.

7. MOUNTING ARRANGEMENT
7.1 Baseframe
The complete generator set is mounted on a heavy duty fabricated steel baseframe. The baseframe includes a UL listed closed top fuel tank and incorporates specially designed lifting points.

7.2 Coupling
The engine and generator are directly coupled by means of an SAE flange so that there is no possibility of misalignment after prolonged use. The engine flywheel is flexibly coupled to the generator rotor and a full torsional analysis has been carried out to guarantee no harmful vibration will occur in the assembly.

7.3 Anti-Vibration Mounting Pads
Captive anti-vibration pads are affixed between engine/generator feet and the baseframe ensuring complete vibration isolation of the rotating assemblies and enabling the machine to be placed on an uneven surface without detrimental effects.

7.4 Safety Guards
The fan, fan drive and battery charging alternator drive are fully guarded for personnel protection. Heat guards protect personnel from the exhaust pipe. All guards are to OSHA standards.

8. FUEL SYSTEM
Fuel feed and return lines to the engine are terminated at the baseframe mounted 24 hour extended capacity fuel tank. 3-way valves to allow connection of auxiliary fuel tank.

9. CONTROL SYSTEM
9.1 Control Panel
Set mounted autostart panel in a vibration isolated NEMA 1 sheet steel enclosure with a hinged lockable door.
a. DC and AC Wiring Looms
DC and AC wiring looms utilizing industrial type multi-pin connectors to permit fast fault finding.

9.2 Circuit Breaker
3-pole UL CSA listed molded case circuit breaker mounted on the generator set in a vibration isolated NEMA 1 distribution panel.

9.3 Small power receptacles housed in a NEMA 1 distribution panel.
Receptacles accept industry standard male plugs. Each receptacle is protected by a miniature circuit breaker which also acts as an on/off switch.

10. DOCUMENTATION
A full set of operation and maintenance manuals, circuit wiring diagrams, and instruction leaflets is provided.

11. SOUND ATTENUATED ENCLOSURES
A noise reducing enclosure surrounds the entire generator set. Combined with a critical engine silencer this provides an overall noise reduction from 65 to 68 dBA at 23 feet through the range.

12. FACTORY TESTS
The generator set is load tested before dispatch. All protective devices, control functions and site load conditions are simulated and the generator and its systems checked, proved and then passed for dispatch. A test certificate can be provided upon request.

13. EQUIPMENT FINISH
All sheet metal components including the enclosure and the base tank are fully degreased, phosphated and chromated for anti-corrosive protection prior to painting with polyester powder. The powder is cured at a temperature of 200°C (392°F) to ensure maximum scuff resistance and durability. All fasteners are electroplated. The engine and generator are thoroughly cleaned and finished in temperature controlled ovens with industrial high gloss polyurethane paint.

14. STANDARDS
The equipment meets the following standards: BS4999, BS5000, BS5514, IEC60034, EN61000-6, NEMA MG-1,122.

15. WARRANTY
Full manufacturer's warranty.

### SPECIFICATIONS

#### GENERATOR
- **Voltage regulation**: ± 0.5% at steady state from no load to full load
- **Frequency**: ± 0.25% for constant load from no load to 100% load
- **Waveform distortion**: THD < 4%
- **Radio interference**: Compliance with EN61000-6
- **Telephone interference**: TIF < 50, THF < 2%
- **Overspeed limit**: 2250 rpm
- **Insulation**: Class H
- **Temperature rise**: Within Class H limits
- **Available voltages**: 480/277 volt, 240/139 volt 3-phase to 240/120 volt single phase
- **Derivation**: Consult factory for available outputs
- **Ratings**: At 30°C (86°F), 152.4 m (500 ft) 60% humidity, 0.8 pf

#### ENGINE
- **Manufacturer**: Caterpillar
- **Model**: C2.2
- **Type**: 4-cylinder
- **Aspiration**: ATAC
- **Cylinder configuration**: In-line 4
- **Displacement – L (cu in)**: 2.2 (139)
- **Bore – mm (in)**: 84 (33)
- **Stroke – mm (in)**: 100 (3.9)
- **Compression ratio**: 23.3
- **Governor**:
  - **Type**: Electronic
  - **Class**: ISO8528 G1 and G2
- **Piston speed – m/sec (ft/sec)**: 6.0 (19.7)
- **Engine speed – rpm**: 1800
- **Maximum power at rated rpm – kW (hp)**:
  - **Standby**: 36.4 (49)
  - **Prime**: 32.8 (44)
- **BMEP – kPa (psi)**:
  - **Standby**: 1095 (158.8)
  - **Prime**: 987 (143.1)
- **Regenerative power – kW (hp)**:
  - **Standby**: 7.2 (9.7)
CONTROL PANEL
A NEMA 1 steel enclosure with hinged lockable door with viewing window.
B Manual run/off.
C Panel light ON/OFF switch.
D Separate pre-heat pushbutton.
E Red emergency stop pushbutton.
F Lamp test/reset pushbutton.
G AC instrumentation: 1-voltmeter, 1-ammeter, 1-frequency meter.
H Engine gauges for: oil pressure, coolant temperature, battery volts, fuel level.
I Fuel level display with momentary activation pushbutton.
J Hours run meter.
K Voltage adjust potentiometer.
L Frequency adjust potentiometer.
M 1 — 7 Position voltmeter phase selector switch.
N 1 — 4 Position ammeter phase selector switch.

OTHER FEATURES
• Shutdowns: high coolant temperature/low coolant level, low oil pressure, overcrank, overspeed.
• Low fuel level/fuel tank leak alarm.
• Printed circuit board control logic.
• Autostart standard.
• Cycle cranking with 3 adjustable time crank/rest periods.
• Battery charger, 5 Amp constant voltage, UL listed (optional).

DISTRIBUTION PANEL
1 1 — 3 Pole Mccb with solid neutral (4 Wire), UL/CSA listed with shunt trip. Integral trip unit for thermal and magnetic overload protection on Mccb.
2 Main bus connection studs enclosed with hinged transparent cover for easy access and operator safety.
3 Cover for bus studs includes safety lockout feature to keep unit from operating with door open.

4 2 — Single phase — California style Twistlocks, 50 Amps @ 208 Volt phase to phase, 120 Volt phase to neutral (adjustable to 240/139) or 240/120 single phase when operating in single phase voltage position.
5 2 — Single phase — GFCI Duplex receptacles, 20 Amps @ 120 Volts.
6 Individual circuit breaker protection for receptacles. Also act as on/off switches.
7 2 — 3-phase NEMA locking receptacles, 20 Amps at 208/120V
8 Two wire remote start connection terminals.
9 1 — 30A, 125V single phase NEMA locking inlet receptacle

*** Receptacles not for use with unit operating at 480/277V or 240/139V 3 phase.
RATING DEFINITIONS

Standby – Applicable for supplying continuous electrical power (at variable load) in the event of a utility power failure. No overload is permitted on these ratings. The generator on the generator set is peak prime rated (as defined in ISO8528-3) at 30°C (86°F).

Prime – Applicable for supplying continuous electrical power (at variable load) in lieu of commercially purchased power. There is no limitation to the annual hours of operation and the generator set can supply 10% overload power for 1 hour in 12 hours.

Hello from Founders Detroit Taproom!

We are hosting our first annual Founders Detroit: Outer Limits Party on Saturday, September 28th from 12pm-12am and wanted to share details with our community neighbors. The event footprint will include our Taproom, Beer Garden, and parking lot with live music in the parking lot from 2pm-11pm, games, grilled food, and of course lots of special beers we have saved for this occasion. This event isn’t just about beer and music, however, and we are excited to announce our official charity partner for the Outer Limits Party: Gleaners Community Food Bank. Because we support their mission to provide households with access to sufficient, nutritious food, and related resources to achieve a hunger-free community in southeast Michigan, our Big Pitcher program will be making a donation to Gleaners Community Food Bank.

We will be sharing some tickets with each of you closer to the event, and will be announcing the full lineup and taplist details when tickets go on sale August 23rd. Our hope is that this event will grow each year and be an experience the Midtown community can take part in, so please feel free to reach out to me with any questions or concerns you may have, and I’ll send everyone a more detailed message once we announce further details. Thanks!
