### **THURSDAY, APRIL 21, 2022 AT 6:00 PM**

The public hearing is to consider the request of R. Philip Lockwood on behalf of XYZ 20-02 RPF LLC and the City Planning Commission to amend Article XVII, Section 50-17-6, District Map No. 5 of the 2019 Detroit City Code, Chapter 50, Zoning, to show an SD1 (Special Development, Small-Scale, Mixed-Use) zoning classification where R2 (Two-Family Residential), R3 (Low Density Residential), and B4 (General Business) zoning classifications are currently shown for twenty-two parcels generally bounded by West Hancock Street to the north, Avery Street to the east, Lysander Street to the south, and Rosa Parks Boulevard to the west. The specific location of the proposed rezoning is indicated as the shaded area on the accompanying map.

The proposed map amendment is being requested to permit a mixed-use development consisting of approximately 59 residential units and 7,500 square feet of commercial space on fourteen scattered parcels. The current zoning allows both residential and commercial uses, but the SD1 district allows narrower setbacks and more walkable layouts. The City Planning Commission is partnering on the request in order to include additional parcels to make the zoning of the entire block consistent. The pertinent zoning district classifications are described as follows:

#### **R2 – Two-Family Residential District**

This district is designed to protect and enhance those areas developed or likely to develop with single- or two-family dwellings. The district regulations are designed to promote a suitable environment for homes and for activities connected with family life. The only principal uses permitted by right are single- and two-family dwellings. Additional uses are conditional.

#### **R3 – Low Density Residential District**

This district is designed as a low-density multi-family district. The regulations are designed to promote and encourage town and terrace house development, courts, and garden apartments. It is intended that this district be used primarily on local thoroughfares thereby encouraging a suitable environment for family life. Among others, uses permitted by right include single- and two-family dwellings, townhouses, multi-family dwellings, and community facilities necessary to serve a residential district.

#### **B4- General Business District**

This district provides for business and commercial uses of a thoroughfare-oriented nature. In addition to these uses, other businesses, which may benefit by drawing part of their clientele from passing traffic are permitted. Additional uses, which may be successfully blended with permitted by-right uses, are conditional.

#### **SD1 - Special Development District, Small-Scale, Mixed-Use**

This district is designed to encourage a complementary mixture of small-scale pedestrian and transit-oriented uses that are compatible in a neighborhood setting. It is intended to ensure a neighborhood character and place a proper balance of activities within walking distance of one another while serving the day-to-day needs of residents. Parking requirements are reduced in certain circumstances to promote use of transit and non-motorized transportation; shared parking and a district approach to parking are encouraged to lessen demand for off-street parking spaces. Certain establishments that serve alcohol for consumption on the premises are permitted without a spacing requirement in order to attract increased pedestrian traffic to the area.

Zoning Ordinance amendments require approval by the City Council following a separate public hearing conducted by the Council. The Council considers the matter upon receipt of a report and recommendation from the City Planning Commission. This Zoning Ordinance map amendment request is being considered consistent with the provisions of Article III, Divisions 2, 3 and 4 of Chapter 50 of the 2019 Detroit City Code, the Detroit Zoning Ordinance.

All interested persons are invited to be present and be heard as to their views.
