RE: Request to Accept and Appropriate the FY 2023 Project Healthy Community Grant

Project Healthy Community has awarded the City of Detroit General Services Department with the FY 2023 Project Healthy Community Grant for a total of \$15,000.00, to support Detroit Animal Care. There is no match requirement. The total project cost is \$15,000.00.

The objective of the grant is to improve public safety for residents and visitors by reducing the number of loose dogs within the city limits. The funding allotted to the department will be utilized to purchase replacement two-way radios and chargers to be used in the field, increasing the efficiency of Detroit Animal Care operations. This is a reimbursement grant.

If approval is granted to accept and appropriate this funding, the appropriation number is 21244.

I respectfully ask your approval to accept and appropriate funding in accordance with the attached resolution.

Sincerely,

Detroit Community-Based Projects

Agreement

Congratulations!

Detroit Animal Care and Control has been recommended by Shri Thanedar, Ph.D, State Representative 3rd District for a subgrant of up to \$15,000 from the Michigan Economic Development Corporation (MEDC). The MEDC grant is managed by the grant awardee Project Healthy Community (PHC).

The subgrant is for beautification projects and community improvement programs in Detroit.

Please briefly describe how your association will use the grant funds (include the anticipated costs and start and completion date of the project).

Detroit Animal Control, a division of the General Services Department of the City of Detroit is focused on public safety for the residents and visitors to our city. To improve public safety and reduce the number of loose dogs within the city limits we employ two-way field radios that are used to communicate with fellow officers and with Police Precincts.

This tool allows us to be immediately informed by Detroit Police of any emergency situations dealing with animals. It also enables our officers to communicate on the fly while out in the field, to coordinate capture efforts and sweeps of areas where dogs have been seen running loose.

Our current set of radios are showing signs of wear and age. This grant would allow us to purchase some replacement radios and chargers to be used in the field during operations, increasing the efficiency of our operations.

Project end date March 31st 2023

Projected cost \$14,525.00

Detroit Animal Control is a division of the General Services Department authorized to administer and enforce the provisions of Chapter 6 of the 2019 Detroit City Code.

The mission of Detroit Animal Control is to promote and protect the health, safety and welfare of residents and visitors of the City of Detroit from animal bites, zoonotic disease, and traffic hazards and to encourage responsible pet ownership through education and enforcement.

The MEDC requires that proof of expended funds be reported on a quarterly basis by Project Healthy Community. **Consequently, in most cases the grant will be paid on a reimbursement basis after documentation of expended funds are received. However, exceptions can be requested for a lump sum payment if appropriate documentation is provided.**

An example of how to report project expenses is provided below:
