## EMERGENCY TRANSPORTATION VEHICLES

Pursuant to Section 17-5-91 c, The Purchasing Director, without prior approval of the City Council, may make, or authorize others to make, an emergency procurement when public exigencies require the immediate delivery of articles or performance of services or when there exists a threat to public health, welfare or safety under emergency conditions where prior approval of the City Council would be impossible or impracticable under the circumstances.

The attached one-time PO was entered into and granted by the CPO, as noted, to purchase specialized vehicles to supplement contracted transportation for DDOT service Braun Vans (5), E-350 (4), E-450 (2) and a Trans Van- (1).

January 17, 2023 City Council rejected the proposed Transdev contract bundle that would have provided 70 percent of the Detroit Department of Transportation's (DDOT) complementary paratransit service. DDOT complementary paratransit service is a Federal Transit Administration required service that provides origin to destination service within DDOT's service area to those who are functionally unable to ride the fixed route bus. The newly structured in-house paratransit model will begin January 1, 2023.
