RE: Request for a resolution concerning National Nurses Month

**REQUEST FOR A DRAFT RESOLUTION
CONCERNING NATIONAL NURSES MONTH**

Detroit City Council Member Angela Whitfield Calloway requests that the City Council Legislative Policy Division draft a resolution recognizing National Nurses Month and draft a memorandum explaining the importance of National Nurses Month.

May is National Nurses Month. We should honor our nurses for their efforts and good works. Nurses are the core of our health care system. Our nurses stood strong during the last three years of extremely challenging conditions during the COVID-19 pandemic. We should recognize the amazing work of our nurses during the pandemic, and we should honor our nurses as they continue to serve our community.

The Detroit City Council should adopt a resolution in support of National Nurses Month.

City Council Member Calloway calls on the administration and all other council members to join her in this proposed resolution.
